Subject: RE: Jeff Mansfield inquiry on Shungopavi PWS "interim measure"

Hi Jeff

A water kiosk would be regulated as a separate PWS by EPA. So the villages would need to coordinate with EPA on installing a new water system and ensuring they meet regulatory requirements.

In terms of HUC involvement, I would ask them if they would have any involvement.

Hope that helps,

Emmanuelle

Please: All data submittals to our office should be sent by email to datamanager@epa.gov with a copy to me (or your project manager in the Drinking Water Office). Data reports are due no later than the 10th of the month following the month that you receive results, or the 10th of the month following the compliance period, whichever comes first. Please include the whole lab report and copy of the Chain of Custody. Label with PWS name and number; & source or distribution system location codes or names for data collection points.

Subject: Jeff Mansfield inquiry on Shungopavi PWS "interim measure"

Emmanuelle,

Jeff Mansfield here, I had a quick question, how could the affected PWS for the HAMP go about obtaining permission to install "interim measures" such as a stand alone water dispense kiosk? Would the HUC have the final say so on that or would the villages be free to go about that on their own without any hindrances? Thanks

Jeff
